
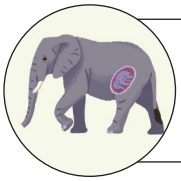
TIME IS WILD

Matching Activity

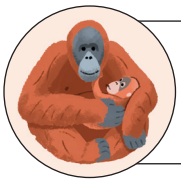
Time matters at every stage in an animal's life, whether it's moving, eating, cleaning, growing or pooping! Learn how animals grow up in their own unique way—and discover how time impacts both non-human and human lives.

Draw a line to the correct amount of time.

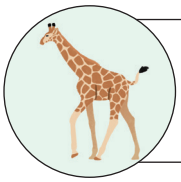


1. HOW LONG IS AN ELEPHANT PREGNANT?

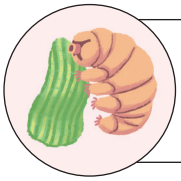
2. HOW MUCH SLEEP DO CHILDREN NEED?



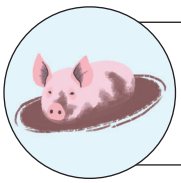
3. UNTIL WHAT AGE DO ORANGUTANGS BREASTFEED THEIR YOUNG?



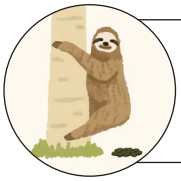
4. WHEN DOES A GIRAFFE TAKE ITS FIRST STEPS?



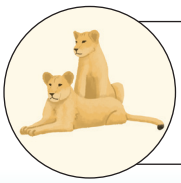
5. HOW LONG CAN A TARDIGRADE GO WITHOUT EATING?



6. HOW OFTEN DO PIGS BATHE?



7. HOW OFTEN DO SLOTHS POOP?



8. WHEN DO FEMALE AFRICAN LION CUBS LEAVE HOME?
